

我们拥有:

20吨以下铸钢件、15吨以下锻件的优质供应商

We possess:

the quality suppliers who can provide less than 20 tons steel casting and under 15 tons forge piece

常州市武进大成橡胶机械厂

Changzhou Wujin Da Cheng Rubber Machinery Plant

企业简介

常州市武进大成橡胶机械厂坐落于美丽富饶的长江三角洲中心地带常州市武进区雪堰镇潘家，与无锡、宜兴毗邻，文化经济发达，交通便利。

常州市武进大成橡胶机械厂成立于一九九六年三月，厂房面积6000余平方米。先后通过了ISO9001质量管理体系认证、ISO14001环境管理体系认证和GB/T28001职业健康安全管理体系认证。

企业的高效运作，离不开优秀的平台支撑。常州市武进大成橡胶机械厂注重员工整体素质的培养，现已拥有了一支经验丰富的专业管理及操作团队。

常州市武进大成橡胶机械厂一向注重生产设备的更新换代，主要生产设备有3×10米数控龙门镗铣床，2.5×4米五面体加工中心，3.5米数控、普通立车，2.5米数控立车，1.6米数控立车，数控卧车，摇臂钻床等。

常州市武进大成橡胶机械厂非常关注加工产品的质量，注重先进计量器具的配置，除分别为检验人员和现场操作人员配备必要的检测工具外，还先后购置了包括磁粉和UT探伤仪、硬度计、粗糙度仪和一套专做校正用的德国马尔内外径千分尺、游标卡尺等。

同时，常州市武进大成橡胶机械厂也注重加强与铸锻件供应商的合作，并在合作过程中不断提升供应商的竞争力，可向您推荐20吨以下铸钢件、15吨以下锻件的优质供应商。

BRIEF INTRODUCTION

Changzhou Wujin Da Cheng Rubber Machinery Plant stands in the resourceful center of Yangtze River Delta, Pan House, Xueyan Town Wu Jin District, Changzhou City with Wuxi and Yixing as its neighbours. It enjoys not only advanced culture and economy but also convenient transportation.

Changzhou Wujin Da Cheng Rubber Machinery Plant, born in March, 1996, has the plant coverage of more than 6000 square meters. It successively gained series of certifications including ISO9001, ISO14001, OHSAS18001.

Efficient work without excellent platform as the backstop. Changzhou Wujin Da Cheng Rubber Machinery Plant attaches so much importance on cultivating the whole quality of its employees that owns an experienced team of professionals who engage in management and operation.

Changzhou Wujin Da Cheng Rubber Machinery Plant always lays stress on upgrade of manufacturing equipments. Such key equipments are the digital-controlled plane milling and boring machine of 3m * 10m, the 5-Face machining center of 2.5m * 4m, digital-controlled and normal vertical lathe of 3.5 m, digital-controlled vertical lathe of 2.5 m, digital-controlled vertical lathe of 1.6 m, digital-controlled sleeper, radial drill etc.

Changzhou Wujin Da Cheng Rubber Machinery Plant is very concerned about the quality of processing products and pays attention to equipment of advanced measuring instruments. In addition to necessary inspection tools for the inspector and the site operator, it also bought magnetic powder for test and many professional instruments such as UT flaw detector, hardness instrument, roughometer and a set of Germany Maldives external micrometer and vernier caliper specially for calibration.

In the mean time, Changzhou Wujin Da Cheng Rubber Machinery Plant highlights strengthening the cooperation with suppliers of casting and forging and keeping improving competitiveness during the cooperation. We can Sincerely recommend to you Less than 20 tons steel casting, 15 tons forging quality suppliers.

公司采用ERP和OA系统实行信息化管理，全面贯彻：“了解上工序，做好本工序，服务下工序。”的原则，将企业内部各工序市场化。真正实现：“以市场为导向，以设计为核心，以数控为保证，以QEA为纽带，按6 Σ 的要求竭诚满足用户，最终制成高品质、低成本、耗时少，服务好的机械零部件。”

The Plant adopts information management through ERP and OA systems, thoroughly implement the principle of "understanding the last procedure, accomplishing the current procedure, serving the next procedure", realizes the interior market chain for each procedure of the plant, so as to really make the plant "market-oriented, design-centered, digital-control-guaranteed, QEA-connected and strive for satisfying the customer with the 6 Σ requirement to eventually make the machinery parts with high quality, low cost and time-consuming as well as good service."
